

GIVEN THE CURRENT CIRCUMSTANCES, WE WILL MOVE THE FAIR!

Light and Design will be moved to 11-12 November 2020!

The Swedish government decided on March 11 that public meetings with more than 500 people should not be held, starting March 12. This decision is so far valid, and no end date has been set. This unfortunately means that the fair will not go as planned on May 27-28.

We can already present a new date for Light and Design Göteborg. It will be on 11-12 November 2020 at Åbymässan. We will, of course, contact all exhibitors, partners and visitors to commonly and constructively handle the issues that arise regarding the current situation.

The health and well-being of our organizers, visitors, exhibitors and staff continues to be our number one priority through this. We will keep you regularly informed about this decision and assure you that we will do our utmost to ensure a great event on November 11-12.

We hope to see you all in November, Welcome!
